SUPERVISORS IN SESSION FIX 1916 TAX-RATE

Contracts Awarded, Hess Bid Held Over, and Other Various Transactions

The board of supervisors met Monday morning and fixed the county tax rate for the fiscal year 1916. Despite the fact that the first payment on the principal of the $1,250,000 highway bond issue, amounting to $30,000, falls due this year, that $50,000 is needed to complete the roads on the coastside, $60,000 for the construction of the new county jail, the board managed to keep the rate down to $2.22, which is one cent lower than last year. To do this required some careful and close figuring on the part of the board, Engineer James V. Neuman and County Auditor J. J. Shields and the latter's deputy, Ed. Stack.

The situation was gone into thoroughly and studied from every angle so as to get the rate just as low as possible. The board succeeded in keeping the rate for the general fund down to 69 cents, as against 77 cents last year. The school fund is 1 cent lower than in 1915, the salary fund two and one-half cents lower, and it was not found necessary to levy any tax for special road fund purposes.

The resolution fixing the tax rate adopted, on motion of MacBain, seconded by Casey, was as follows:

RESOLVED, That by virtue of the authority vested in the Board of Supervisors by and under the provisions of Section 3714, Chapter V, Article 2 of part 3, of the Political Code as amended:

It is hereby ordered that the rates of taxes levied by the Board of Supervisors of the County of San Mateo State of California, for the fiscal year 1916, for State and County purposes upon each one hundred dollars of the assessed valuation of the property in the county of San Mateo, State of California, be and the same are hereby fixed and ordered collected as follows:

General (General purposes), (State Highway Interest)	.69
School	.255
Salary	.255
Indigent	.076
Road Regular	.40
Road Special	.00
Court House Bond and Int.	.025
Court House Furn., bond and Interest	.004
County Highway Bond and Int	.38
County Highway Maintenance	.03
HighSchoolMaintenance (Co)	.07
County Free Library Tax	.01
	$2.22

In the general fund above the rate included the following levies for special purposes:

Pescadero, Santa Cruz County line Road	.075
San Gregorio to Pescadero Rd.	.08
San Gregorio to La Honda Rd	.025
Unapportioned Fd, deficiency	.0275
Advertising	.01
Jail	.16
State Highway, Wellesley Pk	.0175
Hillsborough to Crystal Spring Road	.01
	.405

That the total rate be $2.22 on each one hundred dollars of the assessed valuation of the property in the County of San Mateo, State of California, outside of the incorporated cities, and $1.82 inside of incorporated cities and towns.

Also that the following special taxes be and the same are levied and ordered collected in the following named school and lighting districts in the said county on each one hundred dollars of the assessed valuation in each of said districts to pay the interest on bonds, and for the redemption of bonds issued by the Board of Supervisors, of said county for certain districts and for the purpose of raising building and other funds in certain districts as follows, to-wit:

The board granted aid to the following persons: Marie Beghin, aged 32, Redwood City, on account of illness; Edward Foley, aged 75, Redwood City, on account of disability and old age; and John B. Buelna, aged 72, Menlo Park, on account of ill health.

Bids were opened for the construction of two concrete culverts on the Middlefield Road, as follows:

H. B. Morey and Sons	$1181.22
A. Mattson	1020.50

The contract was awarded to Mattson, on otion of MacBain, seconded by Brown.

The following bids were oepned for constructing macadam shoulders on the Woodside road from the Menlo Country Club to Neuman's store:

A. Hess	$3600.00
Peterson & Grier	4464.00

As he above bids were far above the estimate of Engineer Neuman, both bids were rejected. on motion of MacBain, seconded by Brown and the mater was referred to Supervisor MacBain and Surveyor Neuman to report at the next meeting, the understanding being that the county would probably do the work itself.

District Attorney Franklin K. Swart presented and read a resolution ordering himself as district attorney to institute proceedings against the non-consenting land owners to secure a right of way for the summit road from Halfmoon Bay to the King's Mountain road. The resolution was adopted on motion of Brown, seconded by MacBain.

District Attorney Swart presented deeds from J. Liebes, Palmiro Rossaia and the Oscar Line Investment Co. for rights of way for the new La Honda road. The deeds were received and ordered recorded on motion of MacBain, seconded by Brown.

District Attorney Swart addressed the board and stated that he had information in his possession to prove that certain saloon keepers in the county were allowing women to enter their places and were selling them liquor. He said he expected to have warrants presented at the next meeting of the board citing the above saloon keepers to appear before the board and show cause why their licenses should not be taken from them.

The following persons having complied with the county ordinance and furnished the required bond, were granted liquor licenses:

First Township—Angelo Stampanoni, Colma; Lorenzo Guidoni, Pedro Valley; E. H. Danmann, Pedro Terrace.

Second Township—Oscar Caurtin, San Mateo.

ADMISSION DAY

The anniversary of the admission of the State of California into the Union will be duly celebrated throughout the State today by every Native Son and Native Daughter. To them it is the greatest event of the year. This great state, rich in traditions and glory, is the admiration of the whole country. Well may the Natives celebrate Admission Day for on September 9, 1850 there came into the grand galaxy of states a bright star that has risen to be one of the first magnitude in the firmament and one that sheds luster to the whole group. Well, indeed may every Native Son and Native Daughter celebrate this day.

On June 3, 1909, in an address to the graduating class of Princeton University, Dr. Wilson expressed his remarkable views on labor in the following words: "You know what the usual standard of the employee is in our day. It is to give as little as he may for his wages."

Governor Hughes has never written or spoken a single word inimical to labor. On the contrary he was the greatest friend of labor that ever occupied the governor's chair at Albany. Legislative records at Albany show that during his two terms as governor of New York he signed 56 labor laws.

We earnestly urge every Republican to support the Republican ticket. Past differences should be set aside and all should work for the success of the party in November. We urge support of Hughes and Johnson; these two candidates are practically the only candidates to be voted for at the coming election. The candidates for congress, the senate and assembly are to all intents and purposes elected, so it behooves all to concentrate their energies on the candidates for the presidency and of the United States Senate. It looks now that Hughes will carry the State by a large vote but this should not cause any laxity on the part of Republicans. Hiram Johnson is certain of success. He is the Republican nominee and he should have the full support of the party.

ORGANIZE FOR CAMPAIGN

In accordance with the provisions of law the different county committees elected at the last election will meet at the courthouse on next Tuesday to organize and prepare plans for the forthcoming campaign. The present chairman of the Republican county committee who will call the meeting to order is E. E. Skinner of Burlingame.

CARMEL ANNUAL FESTIVAL

The ladies of Mt. Carmel church will hold their annual festival at the Alhambra theatre on the evenings of October 5, 6, 7, and 9. Many new features will be introduced and a large assortment of useful and ornamental articles will be on exhibition. Any contributions will be thankfully received by the ladies in charge of the various tables.

INJURED BY HORSE

Olf Bonen, an employee of the Spring Valley Water Company at the Bourne place in the Canyada, was brought to the Redwood City hospital yesterday suffering from a painful wound in his left side caused by a kick from a horse. The attending physician, Dr. J. L. Ross, has hopes for his recovery. The injured man is well known in Woodside.

A Great Psychologist on Prohibition

Hugo Munsterberg, the well-known professor of psychology at Harvard, is not a prohibitionist. On the other hand he believes that the prohibition method of dealing with the liquor problem is a mistaken method. ***Read what he has to say on the folly of prohibition:***

"The railroads of the United States injured last year more than one hundred thousand persons and put out seven thousand hopeful lives; does any sane person argue that we ought to abolish railroads? The stock exchange has brought in the last year economic misery to uncounted homes, but even at the height of the panic no one wanted to destroy the market for industrial stock. How much crime and disaster and disease and ruin have come into the lives of American youth through women, and yet who doubts that women are the blessing of the whole national life?

"To say that certain evils come from a certain source suggests only to fools the hasty annihilation of the source before studying whether greater evils might not result from its destruction, and without asking whether the evils might not be reduced, and the good from the same source remain untouched and untampered with. Even if a hollow tooth aches, the modern dentist does not think of pulling it; that would be the remedy of the clumsy village barber. The evils of drink exist, and to neglect their cure would be criminal; but to rush on to the conclusion that every vineyard ought, therefore, to be devastated, is unworthy of the logic of a self-governing nation."

Can the prohibitionists who are asking you to adopt their fads in California point to one single man of the scholastic attainments of Dr. Munsterberg who approves their cause?

Chilcott, inheritance tax appraiser of the estate of Antone Borel, who died in Switzerland Mar. 26, 1915, leaving an estate valued at several millions of dollars. In addition to the already large inheritance tax fixed by the court, the supplemental order will compel the heirs to pay a tax of $1,027.53 on additional property valued at $17,614. This property, consisting mostly of foreign securities, was not included in the original report, as the inheritance appraiser believed it would not be taxed in this country, as it was located in France. The additional tax of $1027.53 is divided among the widow and six children. Mrs. Borel must pay $440.37 and each of the following children the sum of $97.86. SOLID LINE-UP OF AIRCRAFT BIG THREE

Christofferson Aircraft Manufacturing Company, allied with Christofferson Aircraft Motor Company, and the Christofferson Aviation School

The aviation grounds show increased activity from day to day, the scheme of organization so far unfolded revealing three separate undertakings as above outlined, to which important additions are contemplated in order to cover exhibition and other features demanded by and necessary for the accommodation of the public.

At present building construction and the "qualification" flights of pupils well along in the aviation course lead in interest.

Superintendent of Instruction Frank Bryant almost lives in the air at this time but is equal to it, his earnest face, nerves of steel and six-foot of well knit bone and muscle showing not a trace of wear, haste or worry.

Mr. Silas Christofferson, tall, trim and athletic, of quick glance and action, expert in every detail of aviation, plans and moves with the precision of a general but as one to whom time was a most important element, as it truly is. His style is engaging, magnetic. In his considerable undertakings these are valuable assets and he has a most loyal following of trusted lieutenants, intelligent students and solid financial backers.

Of the three allied Christofferson organizations, the Aircraft Manufacturing Company, also the Aviation School, are in active operation and therefore the best known. The Christofferson Aircraft "Motor" Company is a newer enterprise in which both the Christofferson-Tevis syndicate and Eastern capitalists have formulated a strong combination with ample capital for the purpose of manufacturing in California, at the Redwood City plant, the Christofferson aircraft "Motors".

It will thus be seen that a big concern is springing up here, of which all than can be seen at present is but a beginning.

AROUND THE GROUNDS AT THE PRESENT TIME

The two large Aircraft Manufacturing buildings (combined floor space sixty by three hundred and thirty feet) are nearing completion.

The Hangar, with its great one hundred foot stretch of doorway opening directly upon the aviation course, is now in use but awaiting the finishing touches.

The Foundry, where all necessary castings will be made on the spot, is well along toward completion, with the masonry built in.

The Office at the Chestnut street entrance remains to be constructed but will be hurried along now that the larger buildings are so far advanced.

Auto parties to the grounds are of daily occurrence. There seems to be a growing sentiment associating autos with aeroplanes, as if the ownership of aeroplanes would follow in natural sequence and be the coming fad.

There will be eight or nine students who will make qualification flights within the next two weeks, weather conditions permitting. It is stated that all graduates so far have been successful in securing positions.

Sixteen pupils have been graduated recently, but the enrollment of new pupils more than offsets that number. Many of the flights now being made are out of the ordinary, being for altitude, speed, control, endurance or special requireents.

This week Lyman Doty, who has just finished the course, departed for Turlock to give an exhibition flight. His machine was tested at the aviation grounds in the morning, taken down and packed during the day and forwarded by express on the evening train Incidentally this called for a nice bit of "routing" and efficiency work by the Wells Fargo folks here and at San Francisco, who undertook and carried out special delivery from Redwood City to Turlock the same night.

Mr. Josephsen, bidder for carrying Alaskan mails, made a flight during the week with Mr. Bryant of the Christofferson staff and proved to be a resolute, nervy passenger. The 50-mile pace set by Mr. Bryant took his fancy and discounted all comparison with "mushing it" through snow and ice.

Miss Hoge, the aviatrice, has made several flights recently. Residents of the Atherton and Menlo Park districts have been somewhat favored by her birdlike pilgrimages. To make that circuit twice in succession and return to the aviation grounds is to her the work of only a few moments.

Miss Cleveland, secretary of the Christofferson Aircraft M'fg Co., an expert in her line of official duty, made her first aerial voyage this week. She was an intrepid passenger, taking her new part with dash and perfect self-control.

This does not mean that the aviation folks are doing anything to encourage special flights. That would be out of the question at the present time, class work interfering. Miss Hoge is a qualified student and Miss Cleveland, as stated, a trusted attache who has thus acquired a broader outlook upon her chosen line of work.

As a prediction, though, the girl who owns her auto will soon be matched by the new type young lady who will take to the air when out for "thrills," instead of trusting to the hurly-burly of the highways.

It is certain that many new uses are being developed for the aeroplane, and aeroplane literature will keep the people well informed of all that is going on.

In the meantime, bright students are finding their way back to various other countries to illustrate flying methods that must be reckoned with as the latest thing in transportation.

S. B. Phares vs. W. Reid. Demurrer submitted.

Ocean Shore Development Company vs. J. P. Hammond. Motion for a new trial denied.

In the matter of the termination of life estate of Annie Dancak, deceased. Interest in estate vested in Joseph Dancak.

Mazellio A. T. McCarthy vs. Chas. F. McCarthy. Trial of action set for September 26.

Julius Kraus, et al vs. George H. Dyer. Trial continued to October 30.

The People vs. Edward Conway. Demurrer overruled. Motion to set aside information denied. Defendant pleads not guilty and September 25 set as the day for trial.

Robert Blei vs. H. C. Knight. Judgment ordered for plaintiff.

William Knuston vs. James Varni. As per stiuplation on file herein this order that judgment be and the same is hereby set aside.
